RESPONDERS' COMMENTS FOR EC 201 732 (US22)

Question 6: Please provide any comments concerning this course and/or instructor below.

- Both instructors were very good. I was able to learn a lot.
 - He was great at replying to emails promptly and helping with questions that were not included in the course but that I was still curious about. Additionally, office hours were easy to get into and were very helpful. As a result of this course, I will probably look to minor in economics - he was really a great teacher!
 - I enjoyed the class and how quickly it moved through a usual semester long class. The professor did a good job at reviewing the course each week over an hour long zoom meeting. He was able to condense the topics well in the short course and I feel like I learned a lot.
 - I had some knowledge of economics before but not even close to what I know now.
 - I learned the content in this course but only through the videos posted by the instructor and the textbook. I wish there were more class meeting sessions where the instructor himself taught more of the content instead of only relying on videos and the textbook.
 - The course was great i love it. I was able to use a lot of the knowledge i learned from highschool and it made the course a bit easier for me. i think Mr. Earle was great
 - The course was pretty good for having taken place in such a short amount of time, I do wish that there were more practice problems available that are similar to what was seen on the exams and that we had the ability to go over reviews as a class and talk through practice problems
 - The instructor was very helpful when needed. He was able to explain topics in different and effective ways so if you didn't understand the video lecture, he was able to help you out. I didn't know much going into this course and I was able to gain a lot of useful information.
 - This is definitely the best economics course I have ever taken and it certainly piqued my interest in the subject. Honestly, economics has never been on my list of favorite things to learn about so it came as quite a surprise that this course changed that. This class was super informative and taught relevant topics, I almost wish it lasted longer so I could learn more.
